Student Assignment according to Zone of Residency, K-3 Current Boundaries, 2/92 Data, No Inter-District Transfers

The current arrangement of K-3 boundaries is shown, including the zones paired by the busing scheme. The student totals show the assignment of students purely according to zones of residency. These totals differ from the numbers of students actually attending each school (as displayed in the Racial Census of October, 1991) due to the effects of intra-district (between schools within the Berkeley School District) transfers which redistribute a large number of students. No inter-District transfer students are included in this model.
